

**Glencoe Light and Power Commission Business
Motors, Pumps, and VFD's Rebates – 2021**

[Look at Terms & Conditions for minimum efficiency and additional details](#)

NEMA Premium Three Phase Electric Motors										
Motor	Make/Model or Catalog #	Qty	Type	RPM	Incentive per HP	HP	Nominal Efficiency	Operating Hours	Start Date	Total Rebate
1-5 HP					\$ 15.00					
7.5-20 HP					\$ 10.00					
25-100 HP					\$ 5.00					
125-200 HP					\$ 4.00					

Required Attachments:

- 1) Motor specification sheet or catalog page clearly showing that the motor is NEMA Premium® labeled or that the motor meets NEMA Premium® efficiency requirements.
- 2) Invoice clearly showing proof of purchase including date purchased, model numbers, horsepower and cost. If contractor installed, please include installation date, address and total project cost.

High Efficiency Pumps							
Pump	Make/Model or Catalog #	Qty	Incentive per Pump	Nominal Efficiency	Operating Hours	Start Date	Total Rebate
1.5			\$ 60.00				
2			\$ 70.00				
3			\$ 100.00				
5			\$ 100.00				
7.5			\$ 200.00				
10			\$ 260.00				
15			\$ 300.00				
20			\$ 400.00				

Required Attachments:

- 1) Pump curves with motor operating points clearly marked Premium® efficiency requirements.
- 2) Invoice clearly showing proof of purchase including date purchased, model numbers, horsepower and cost. If contractor installed, please include installation date, address and total project cost.

VFD's on HVAC Fans, HVAC Pumps, and Process Pumps

VFD Use	Make/Model or Catalog #	Motor HP	Qty	Incentive per HP	Operating Hours	Start Date	Total Rebate
Process Pump				\$ 40.00			
HVAC Pump				\$ 40.00			
HVAC Fan				\$ 40.00			

Guidelines:

- 1) VFD's used to replace existing or failed VFD's do not qualify for incentives.
- 2) This incentive is for VFD's used on process pumps, HVAC pumps and HVAC fans only.
 - a) Examples include VFD's used to control the following: HVAC fans, boiler draft fans, cooling tower fans, chilled water distribution pumps, and hot water distribution pumps.
- 3) **VFD's that do not qualify under these prescriptive measures listed above, such as VFD's on motors larger than 150 horsepower, may be incentivized as a Custom project.**
