# To Apply for a Rebate

### **1. Determine Eligibility**

#### 2. Install Equipment:

a) All projects with potential rebates above \$5,000 must be approved by the utility prior to the commencement of the project.

b) Only new equipment qualifies for a rebate; old equipment must be removed and disposed of properly and must not be installed elsewhere.

#### 3. Complete and sign the application

a) Attach copies of all project invoices, including labor costs and ALL required documentation.

### 4. Submit completed application to:

|                                       |                                   |

# Certifications and Signature |

hereby certify that:

- 1. The information contained in this application is accurate and complete.
- 2. All installation is complete and the unit(s) is operational prior to submitting final application.
- 3. All rules of this incentive program have been followed.
- 4. I have read and understand the terms and conditions included with this document.

5. Any old equipment replaced has been properly disposed of or recycled in accordance with applicable State and Federal regulations. Replaced equipment must not be reused or sold for use in another location.

The customer agrees to verification of equipment installation which may include a site inspection by a program or utility representative. The customer understands that it is not allowed to receive more than one incentive from this program on any one piece of equipment. The customer agrees to indemnify, defend, hold harmless and release the utility from any claims, damages, liabilities, costs and expenses (including reasonable attorneys' fees) arising from or relating to the removal, disposal, installation, or operation of any equipment or related materials in connection with the programs described in this application, including any incidental, special, or consequential damages.

Please sign and complete all information in this application.

**Guidelines:** 

1) VFDs used to replace existing or failed VFDs do not qualify for incentives.

2) This incentive is for VFDs used on process pumps, HVAC pumps and HVAC fans only.

a) Examples include VFDs used to control the following: HVAC fans, boiler draft fans, cooling tower fans, chilled water distribution pumps, and hot water distribution pumps.

3) VFDs that do not qualify under these prescriptive measures listed above, such as VFDs on motors larger than 150 horsepower, may be incentivized as a Custom project.
